

INCREASING DIVIDEND EQUITY ACCOUNT (IDEA)

SEPTEMBER 30, 2019

OBJECTIVE

Focused on companies that have paid or increased dividends over the last 10 years. Primary investment objective is capital appreciation with dividend income as a secondary objective.

INVESTMENT PHILOSOPHY

Confluence's investment philosophy builds upon the required criteria established to create the initial IDEA investable universe. Stocks selected for the strategy are diversified across a variety of sectors, avoiding excess concentrations in particular industries. Companies typically have well-positioned business models, ones that can grow during economic expansions and persevere through recessions and industry downturns.

Valuations play an important role, as we believe avoiding excessive valuations is a key metric in managing risk. We also focus on companies where debt levels are manageable. The result is a diversified portfolio of high-quality companies operating stable businesses from which they can offer the prospect of rising dividends to shareholders.

OVERVIEW

- Seeks businesses with long track records of distributing earnings to shareholders through dividends dividends over the last 10 years - companies have paid or increased
- Market capitalizations greater than \$1 billion
- Approximately 2% position sizes
- New account fully invested at inception
- I ow turnover
- Anticipated dividend growth rate of the aggregate portfolio is important since inflation can erode investment returns and lower purchasing power; however, because the targeted portfolio dividend growth rate is higher than inflation, real income to investors can grow over time

CHARACTERISTICS ¹	Portfolio	S&P500
Dividend Yield	2.1%	2.0%
Number of Positions	49	505
Annual Turnover (5-Year Rolling)	9%	

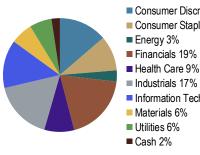

¹This information is presented as supplemental information to the disclosures required by the GIPS® standards. There can be no assurance that a purchase of the stocks in this portfolio will be profitable, either individually or in the aggregate, or that such purchase will be more profitable than alternative investments, including the fisk flat our estimate of intrinsic value may never be realized by the market or that the price goes down. The listing of "10 Largest Holdings" is not a complete list of all stocks in the portfolio or which Confluence may be currently recommending. Application of the investment strategy as of a later date will likely result in changes to the listing. Contact Confluence for a complete list of holdings. Fortfolio yield: composite level weighted average yield, calculated based on annualized current dividends; source: FactSet. Berchmark yield source, Blogmberg. Annual turnover 5-year rolling calculated from sample accounts for periods ending 12/31/2018.

MARKET CAP ¹	Portfolio	S&P500
Weighted Avg. Market Cap (\$B)	113.2	249.7
Largest Market Cap (\$B)	1,061.6	1,061.6

Smallest Market Cap (\$B)	4.1	2.9
Large Cap (>\$10B)	82%	
Mid Cap (\$10B-\$2B)	16%	
Small Cap (<\$2B)	0%	

10 LARGEST HOLDINGS¹

Stryker Corporation	2.5%
Brown & Brown, Inc.	2.4%
The Home Depot, Inc.	2.4%
Mastercard Inc.	2.4%
Analog Devices, Inc.	2.4%
Microsoft Corporation	2.4%
The Southern Company	2.3%
McDonald's Corp.	2.3%
Air Products and Chemicals, Inc.	2.2%
Fidelity National Information Services	2.2%

SECTOR ALLOCATION¹

Consumer Discretionary 14%

- Consumer Staples 10%

- Information Technology 14%
- Materials 6%

INVESTMENT PROCESS

IDEA SECURITY SCREEN CRITERIA

The initial security screen for the IDEA portfolio includes the following criteria:

Consistent, Growing Dividends:

- Consecutive dividends paid over the last 10 years ٠
- No dividend reductions in the last 10 years
- Dividend raised in 7 of the last 10 years
- Dividend yield greater than 1%

IDEA Criteria Indicate:

- Stable and growing cash flow
- High-quality companies
- Moderate to low levels of debt

IDEA PORTFOLIO CONSTRUCTION

- Approximately 180 companies meet the initial IDEA criteria:
- Diversified across industries and market capitalizations
- Narrowed universe is 50% large cap, 40% midcap, 10% small cap
- Value-based approach utilizes Confluence's internal 11-member research team to evaluate the business and valuation
- Based on internal research, the portfolio management team can make special exceptions for companies that have growing dividends but do not pass all of the initial security screen criteria
- Portfolio management team constructs a welldiversified portfolio consisting of 49 names that have the potential for continued dividend growth and trade at attractive valuations

How is IDEA DIFFERENT?

- IDEA can buy small cap and mid-cap stocks
- Fundamental research in addition to the **IDEA** criteria
- Not just about dividends and yield, but about growing dividends
- A separately managed account you know what you own
- A proven approach no new twists
- New accounts are fully invested at inception

ABOUT CONFLUENCE INVESTMENT MANAGEMENT LLC

Confluence Investment Management is an independent Registered Investment Advisor located in St. Louis, Missouri that was founded in 2007. Confluence provides professional portfolio management and advisory services to institutional and individual clients. The firm's investment philosophy is based upon independent, fundamental research that integrates evaluation of market cycles, macroeconomics and geopolitical analysis with the firm's value-driven, fundamental company-specific approach. Confluence's portfolio management philosophy begins by assessing risk and follows through by positioning clients to achieve their income and growth objectives.

Portfolio Benchmarks

wknowles@confluenceim.com

S&P 500 Index - A capitalization-weighted index of 500 stocks. The Index is designed to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries

Russell 3000® Value Index - A capitalization-weighted index designed to measure performance of those Russell 3000® Index companies with lower price-to-book ratios and lower forecasted growth values. (Source: Bloomberg)

Confluence claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Confluence has been independently verified for the periods of 8/1/2008 through 12/31/2017. A copy of the verification report is available upon request. Verification assesses whether: 1. the firm scample data with all the composite construction requirements of the GIPS standards. Verification assesses whether: 1. the firm splicies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. The Increasing Dividend Equity Account (IDEA) Composite was created on October 1, 2009. Confluence Investment Management LLC is an independent registered investment adviser. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of all fees and include the reinvestment of all income. ¹Pure gross returns are shown as supplemental information to the disclosures required by the GIPS ® standards.

rpond@confluenceim.com

2 Net of fee performance was calculated using the highest applicable annual bundled fee of 3.00% applied quarterly. This fee includes brokerage commissions, portfolio management, consulting services and custodial services. The Confluence fee schedule for this composite is as follows: 0.60% on the first \$500,000; 0.55% on the next \$500,000; and 0.50% over \$1,000,000. There are no incentive fees. Clients pay an all-inclusive fee based on a percentage of assets under management. The collection of fees produces a compounding effect on the total rate of return net of fees. Bundled fee accounts make up 100% of the composite for all periods. Actual investment advisory fees incurred by clients may vary. Wrap fee schedules are provided by independent wrap sponsors and are available upon request from the respective wrap sponsor.

A complete list of composite descriptions is available upon request. Additional information regarding policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request. The annual composite dispersion is an equal-weighted standard deviation calculated for accounts in the composite for the entire year. The IDEA Composite contains fully discretionary IDEA wrap accounts. The IDEA portfolio is selected from a universe of stocks, from all market capitalizations, meeting minimum criteria of paying and increasing dividends over the last 10 years. **Results shown for the year 2009 represent partial period performance from October 1, 2009 through December 31, 2009. N/A-Composite Dispersion: Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year. N/A-3yr Std Dev: Composite does not have 3 years of monthly performance history.

³Historical Performance Chart—Annualized returns using calendar quarter performance data. Down Markets: annualized negative benchmark return; Neutral-Up Markets: annualized positive benchmark return is less than 10%; Strong Up Markets: annualized benchmark return is greater than 10%. The Standard & Poor's 500 Index (S&P 500®) is an unmanaged market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance. Down Markets: Q2 '10, Q3 '11, Q2 '12, Q4 '12, Q3 '15, Q1 '18, Q4 '18, Neutral-Up Markets: Q2 '11, Q1 '14, Q3 '14, Q1 '15-Q2 '15, Q1 '16, Q3 '19; Strong Up Markets: Q4 '09-Q1 '10, Q3 '10-Q1 '11, Q4 '11-Q1 '12, Q3 '12, Q1 '13, Q4 '13, Q2 '14, Q4 '14, Q4 '14, Q4 '15, Q2 '16-Q4 '17, Q2 '18-Q3 '18, Q1 '19-Q2 '19

⁴Statistical Analysis—Standard Deviation: Measures price variability (risk) over a period of time; higher Standard Deviation indicates more variability in returns. Sharpe Ratio: Quantifies risk-adjusted performance by measuring excess return per unit of risk; higher Sharpe Ratio suggests better risk-adjusted performance. Beta: Measures portfolio volatility (systematic risk) compared to an appropriate benchmark index; e.g., Beta of 1.1 indicates the investment has approx. 10% more volatility in returns than benchmark index. Alpha: Measures nonsystematic return or return that cannot be attributed to the market, i.e., how the manager performed if the market had no gain or loss. R-Squared: Indicates whether comparison index is an appropriate benchmark based on correlation; generally, R-Squared above 0.70 is desirable. Downside Capture Ratio: Measures performance in down markets relative to index (down market: any quarter where the market return is less than zero); lower Downside Capture Ratio indicates the manager protected capital better during a market decline.
